

CALL FOR POSTERS

WOMEN IN DATA SCIENCE REGENSBURG

 **May 25th 2023**

Data science, machine learning and artificial intelligence

In its third year running, „Women in Data Science Regensburg“ will bring together internationally recognized leaders in data science who will present their data science research and applications. The day features everything from trustworthy AI to medical technology to robotics and more. In addition to the keynotes and technical talks, we will present further highlights in a poster session.

Are you interested in presenting the results of your research in the field?

Send the title and abstract of your poster as well as a short biographical note to wids.regensburg@posteo.de by April 25th to apply.

All women or individuals who identify as women are eligible to present a poster.

WiDS Regensburg is an independent event organized by the Regensburg AIR Initiative to coincide with the annual Women in Data Science (WiDS) Worldwide conference organized by Stanford University and an estimated 150+ locations worldwide, which features outstanding women doing outstanding work in the field of data science.

Although all the speakers will be women, participants of all genders are encouraged to attend the talks and join the discussion.
