

CALL FOR POSTERS

**Women in
Data Science
Worldwide**

Regensburg

May 14th 2024

Jahnstadion Regensburg

Data Science, Machine Learning and Artificial Intelligence

In its fourth year running, “Women in Data Science Regensburg” will bring together internationally recognized leaders from university (TUM, University of Tübingen) and industry (Google DeepMind, German Aerospace Center, deepset.ai, Bulwiengesa, Infineon), who will present their **research and applications**. The day features talks about transformer models, ethics, fault resistance of intelligent systems as well as causality in automated driving. In addition to the keynotes and technical talks, we will present further highlights from a wide range of topics in a **poster session**. Take a look at our homepage for impressions and topics from the previous years.

Are you interested in presenting the results of your research in the field?

Send the title and abstract of your poster as well as a short biographical note to wids.regensburg@posteo.de by April 25th to apply.

All women or individuals who identify as women are eligible to present a poster.

WIDS Regensburg is independently organized by representatives from networks, universities, and businesses to be part of the mission to increase participation of women in data science and to feature outstanding women doing outstanding work.

Although all the speakers will be women, participants of all genders are encouraged to attend the talks and join the discussion.
